- Lesson 13: The Farmer 2
- Lesson 15: The Artist 4
- Lesson 17: The Farmer 3
- Lesson 19: The Artist 5

AP Computer Science Principles (AP CSP) Summer Assignment 2019

Computer + Internet Access this Summer

All Public Libraries have computers and internet access for your *free* use. If you DO NOT have access to either a computer or internet, please use the link below to locate the nearest library to you:

NY Public Library Locations: <https://www.nypl.org/locations/map>

(For Manhattan, the Bronx and Staten Island)

Brooklyn Public Library Locations: <https://www.bklynlibrary.org/locations>

Queens Public Library Locations: http://www.queenslibrary.org/ql_findabranh

Please note you must have a borough-specific library card to use the library and its computers.

For example, even if I live in Queens but I want to use a Manhattan library,
I must have a NY Public library card.

Failure to submit the summer assignment by the deadline will negatively impact your summative assessment grade in Marking Period 1 for the Fall semester.

Begin your work right away and schedule a regular time during the summer to complete it. Avoid doing everything at the last minute (the week before school starts for example!); spread your work out over the course of the summer in small pieces. By doing so you'll retain the material more effectively and set yourself up for a more successful regimen during the school year.
